Description

The Ruko-113027-1 hole saw is designed to deliver exceptional performance when drilling hard materials. With a diameter of 27.0 mm, this tool is ideal for industrial and construction applications, ensuring precise and efficient cuts. Its carbide construction provides superior durability and wear resistance, making it a reliable choice for professionals who require high-quality tools.

The hole saw's design allows for easy installation in standard drills, ensuring versatile use in various work environments.

Its optimized design minimizes heat buildup during drilling, extending tool life and improving cut quality.
