Description

The Ruko-113002 is a pilot drill bit specifically designed for use with universal carbide core drills. This accessory is essential for ensuring accurate and efficient drilling in a variety of materials. Its robust and functional design allows for easy installation and optimal performance, facilitating work on construction, repair, and maintenance projects. The pilot drill bit includes an ejection spring that ensures the correct removal of the drilled material, improving productivity and reducing working time. Its compatibility with different core drill bits makes it a versatile tool for professionals and DIY enthusiasts.

- **Model:** Ruko-113002
- **Type:** Core drill bit for core drill bits
- **Material:** Carbide
- **Compatibility:** Universal
- **Includes:** Ejection spring
- **Use:** Drilling in various materials
- **Installation:** Quick and easy
- **Precision:** High drilling accuracy
- **Durability:** High wear resistance
- **Applications:** Construction, repair, and maintenance

Specifications

EAN	4007140367648
Manufacturer	Ruko
Material	Metal
Weight (kg)	0,0100
