

Product sheet

RUKO carbide fluobroca M5 for RSH 1300 drill - high precision and durability.

Brand: Ruko

Reference: TUR 274005

The Ruko-274005-Fluorocarbide drill bit with M 5 thread is compatible exclusively with the RSH 1300 drill. It allows for making closed holes in various metal materials using frictional heat, without generating chips and in a few seconds.

[View product online](#)**Description**

The Ruko-274005-Carbide Fluorodrill is a high-precision tool designed specifically for use with the RSH 1300 drill. This innovative accessory uses the principle of frictional heat to plasticize metallic materials of various characteristics, allowing the creation of tight holes in a matter of seconds. Thanks to its advanced technology, the flux-cored drill bit is capable of working on materials of varying thicknesses without generating chips, making it an efficient and clean option for drilling projects.

- **Model:** Ruko-274005
- **Material:** Carbide
- **Thread:** M 5
- **Compatibility:** Only suitable for RSH 1300 drills
- **Function:** Local frictional heat generation
- **Applications:** Drilling closed holes in metals
- **Advantage:** No chip generation
- **Drilling time:** A few seconds
- **Material thickness:** Various types and thicknesses
- **Recommended use:** Industrial and DIY projects

The Ruko-274005 Fluorodrill is an essential tool for those seeking precision and efficiency in their metal drilling work.

Specifications

High	3,00
Width	3,00
EAN	4007140362889

Manufacturer	Ruko
Material	Metal
Weight (kg)	0,0100
Depth	8,50
