Description

The **GT Line-AI1.KT01-ALL IN ONE Tool Trolley** is the ideal solution for professionals who require an efficient and secure system for storing and transporting tools. Its frame, manufactured from polypropylene copolymer using injection molding, guarantees exceptional resistance to impacts, extreme temperatures, and demanding working conditions. This trolley is designed to facilitate access to and organization of hand tools, power tools, and spare parts, making it an indispensable personal assistant for maintenance and repair services.

The trolley features an extendable telescopic handle that reaches up to 990 mm in height, along with four robust and quiet wheels that ensure smooth and comfortable movement. Each drawer offers complete accessibility and is equipped with a retention system that prevents accidental removal.

The central lock allows for the secure closure of all compartments with a single key, and the padlock holes are reinforced with steel for added security.

- Polypropylene frame resistant to shocks and extreme temperatures.
- Telescopic handle extends up to 990 mm.
- Four robust and quiet wheels for easy transport.
- Central lock with a single key for all compartments.
- Drawer retention systems to prevent items from falling out.
- Includes a removable top tray.
- Drawers with pre-cut, two-tone foam for efficient organization.
- Drawer with 23 compartments for various components.
- Drawers with transparent dividers for better visibility of contents.

- Optimized design for storing hand and power tools.
