Description

The GT Line-ROCKTURTLEPEL tool case is the ideal solution for professionals who require safe and efficient transport of their tools and accessories. Made of high-density polyethylene, this case is virtually indestructible, guaranteeing exceptional durability under demanding conditions. Its robust design includes an extra-thick aluminum rim that ensures a tight closure, while reinforced edges make it perfect for air freight. With a large storage capacity, this case is suitable for power tools, spare parts, and other essential components.

The tool securing system using elastic straps provides optimal organization, while its corrosion resistance ensures long-lasting use. The case features an ergonomic heavy-duty handle and a telescopic trolley handle, complemented by large wheels for easy transport.

It also includes an upper and lower tool panel with elastic straps, a document compartment, and two small storage boxes, making it a versatile and functional option.

- Made of high-density polyethylene
- Extra-thick aluminum rim
- Large capacity with reinforced edges
- Tool anchoring with elastic straps
- Corrosion resistant
- Ergonomic handle with extreme load capacity
- Telescopic handle and large wheels for easy transport
- Document compartment
