Description

The Olfa-XSR-200 is a professional scraper designed for robustness and versatility in a variety of applications. Its two-component, non-slip handle from the X Series provides a secure and comfortable grip, allowing for extended use without fatigue. This scraper features interchangeable blades, making it easy to adapt to different tasks and materials. The included standard blade measures 100 x 18 x 0.5 mm, ideal for demanding scraping jobs, while the flexible BSF blade can also be used for more delicate applications. The blade replacement system is intuitive and tool-free, optimizing working time and improving efficiency. In addition, the Olfa-XSR-200 comes with a safety sheath that protects the blade when not in use, thus ensuring user safety.
