Description

The Guillet-5481 Crown Extraction Kit with 1/8" tapered connection is a specialized tool designed to facilitate crown extraction in technical and professional applications. This kit is characterized by its robustness and precision, allowing for efficient and safe handling in various situations. Its 1/8" tapered connection ensures optimal compatibility with a wide range of devices, guaranteeing reliable and long-lasting performance. The quality of the materials used in its manufacture provides superior strength, making it an ideal choice for professionals who require high-performance tools.

- **Model:** Guillet-5481
- **Type:** Core drill extraction kit
- **Connection:** 1/8" tapered
- **Material:** High strength
- **Use:** Professional and technical
- **Compatibility:** Wide range of devices
- **Design:** Optimized ergonomics for easy handling
- **Durability:** Robust construction for long-lasting use
- **Precision:** High extraction accuracy
- **Applications:** Ideal for mechanical and maintenance work

Specifications

High	15,50
Width	7,50
EAN	3660354054813
Manufacturer	Guillet
Weight (kg)	0,1800

Depth	2,00
