Description

The Guillet-7460 is a ratio thread adapter designed for the Megadrill modular system, offering a length of 250 mm and an SDS-max shank. This product stands out for its versatility, allowing it to adapt to various drilling situations. Its modular design allows for the addition of extensions, facilitating the drilling of holes up to 1 meter deep. To optimize performance, it is recommended to make frequent forward and reverse strokes, which helps to clear debris and prevent blockages during the drilling process. It is essential to keep the hammer properly aligned on its axis to ensure efficient drilling. It should be noted that drilling speed may decrease at greater depths, which is an aspect to consider when planning the work.

- Length: 250 mm
- Compatible with the Megadrill modular system
- SDS-max shank for a secure grip
- Adaptable to various drilling situations
- Possibility of adding extensions for drilling up to 1 meter
- Recommended for forward and backward movements to clear debris
- Keep the hammer aligned on its axis
- Slower drilling at greater depths
- Threaded parts must be greased and protected from dust and moisture

Specifications

High	31,00
Width	3,50
EAN	3660354074606
Manufacturer	Guillet

Weight (kg)	0,4900
Depth	2,50
