

Product sheet

HOLAMAX drilling head with ratio thread, 50 mm diameter, modular system.

Brand: Guillet

Reference: TUR 4807

Guillet-4807 Holomax drilling head with ratio thread, designed for the Megadrill modular system. With a 50 mm diameter, it facilitates deep and efficient drilling. Proper maintenance of the threaded parts is required for optimal performance.

Description

The Guillet-4807 Holomax drill head with ratio thread, part of the Megadrill modular system, is a tool designed for versatility and efficiency in drilling tasks. With a 50 mm diameter, this head adapts to various drilling situations, allowing for easy drilling of holes up to 1 meter deep thanks to its extensions that attach to the adapter. Its design allows for forward and backward movements, which helps clear debris and prevent blockages, ensuring smoother and more effective work. For best results, it is essential to keep the hammer properly aligned on its axis, as drilling slows down at greater depths. Furthermore, it is crucial to care for the threaded parts, keeping them lubricated and protected from dust and moisture.

- Head diameter: 50 mm
- Compatible with the Megadrill modular system
- Extensions for drilling up to 1 meter
- Forward and backward movements to release debris
- Prevention of jamming during drilling
- Maintenance of hammer alignment on its axis
- Slower drilling at greater depths
- Threaded parts must be lubricated
- Protection against dust and moisture
- Robust and durable design

Specifications

High	17,00
Width	6,50

EAN	3660354048072
Manufacturer	Guillet
Weight (kg)	0,6400
Depth	6,50
