

Product sheet

GUILLET drilling head with ratio thread, 55 mm diameter, Megadrill modular system.

Brand: Guillet

Reference: TUR 2298

Guillet-2298 Holomax drill head with ratio thread, designed for the Megadrill modular system. With a diameter of 55 mm, it allows for deep and efficient drilling, adapting to various situations. Proper maintenance is required for optimal performance.

Description

The Guillet-2298 Holomax drill head with ratio thread, part of the Megadrill modular system, is a tool designed for versatility and efficiency in drilling tasks. With a 55 mm diameter, this head adapts to various drilling situations, allowing for easy drilling of holes up to 1 meter deep. Its modular design allows for the addition of extensions to the adapter, facilitating work in different environments and with various materials. To optimize performance, it is recommended to make forward and backward movements during drilling, which helps to clear debris and prevent blockages. Maintaining proper alignment of the hammer on its axis is essential to ensure optimal operation. It should be noted that drilling progresses at greater depths, requiring patience and precision. Furthermore, it is crucial to keep the threaded parts lubricated and protected from dust and moisture to ensure the durability and proper functioning of the drill head.

- Diameter: 55 mm
- Compatible with the Megadrill modular system
- Allows drilling up to 1 meter deep
- Design adaptable to various drilling situations
- Forward and backward movements to release debris
- Prevents jamming during drilling
- Keeps the hammer aligned on its axis
- Slower drilling at greater depths
- Threaded parts must be lubricated
- Dust and moisture protection recommended

Specifications

High	16,50
Width	6,50
EAN	3660354022980
Manufacturer	Guillet
Weight (kg)	0,7200
Depth	6,50
