Description

The NWS-2005-6-SB is a versatile key specifically designed for easy access to electrical cabinets. Its innovative quadruple-turn mechanism allows it to adapt to eight different locking mechanisms, making it an indispensable tool for electrical and maintenance professionals. Manufactured from die-cast zinc (GD-Zn), this key guarantees exceptional durability and strength, even in demanding environments. Its design includes a chain and carabiner for easy transport and storage, ensuring it's always readily available when needed. Presented in a convenient blister pack, the NWS-2005-6-SB is an efficient and reliable solution for handling electrical cabinet locks.

- **Quadruple-turn mechanism:** Allows adaptation to eight types of locks.
- **Material:** Made of die-cast zinc (GD-Zn).
- **Practical design:** Includes chain and carabiner for easy transport.
- **Durability:** Resistant to demanding conditions.
- **Presentation:** Comes in a blister pack for better protection and display.
- **Professional use:** Ideal for electricians and maintenance personnel.
- **Compatibility:** Adapts to multiple types of electrical cabinet locks.
- **Dimensions:** Compact and easy to handle.
- **Color:** Zinc finish provides a professional look.
- **Ease of use:** Intuitive design simplifies access to the fasteners.
