**ATM brand thread guide,
polyester 4.5 mm,
interchangeable tip, 10 m, 180
kg pull**

Brand: ATM

Reference: TUR 750010

4.5 mm x 10 m polyester cable guide, designed for areas with continuous curves. Features a flexible steel tip for greater maneuverability and a maximum pulling force of 180 kg. Its design reduces friction by 60%. Orange color.

[View product online](#)**Description**

The ATM-750010 cable pulling guide is a specialized tool designed to facilitate work in areas with continuous curves. Its 4.5 mm diameter polyester construction and interchangeable tip allow for greater adaptability and flexibility, especially around bend radii, making it an ideal choice for electrical and telecommunications installations. The guide features a flexible steel pulling arm that, thanks to its eyelet, provides easier and more efficient handling in complex situations.

One of the most outstanding features of this guide is its helical ridge design, which reduces resistance and friction when penetrating the conduit. This results in 60% less internal friction compared to other guides, optimizing the installation process and minimizing the effort required.

With a maximum pulling capacity of 180 kg, this guide is robust and reliable, suitable for various industrial and construction applications.

- Diameter: 4.5 mm
- Length: 10 m
- Color: Orange
- Flexible steel pulling point with eyelet
- Helical ridge design
- 60% less internal friction
- Maximum pulling capacity: 180 kg
- Thread: M-5
- Ideal for areas with continuous curves
- Greater flexibility in curve radii

Specifications

High	2,50
Width	28,50
EAN	8435130725271
Manufacturer	ATM
Weight (kg)	0,2850
Depth	28,50
Cable cross-section (mm²)	4.5
