Description

The Pica-6030 is a case containing 12 graphite leads designed to provide precise marking on a wide variety of materials. Its versatility allows for use on dry or wet, smooth or rough surfaces, as well as in dusty or oily environments. This product is ideal for professionals who require a reliable and effective tool for marking and identifying materials in diverse applications. The marks made are easily washable with a damp cloth and become invisible when covered with dispersion paint, making them perfect for temporary or preparation work.

- **Versatility:** Suitable for most materials.
- **Conditions of use:** Works on dry or wet, smooth or rough surfaces.
- **Resistance to contaminants:** Effective in dusty or oily environments.
- **Ease of cleaning:** Washable with a damp cloth.
- **Invisibility:** Marks are invisible when dispersion paint is applied.
- **Refill leads:** Includes 12 rectangular leads, 2x5 mm and 150 mm long.
- **Secure storage:** Case designed for safe storage of the leads.
- **Case Material:** Made of durable plastic.
- **Ease of Use:** Double opening for easy handling.
