Description

The Pica-4020 is a case containing 8 water-soluble, multipurpose leads, designed to offer versatility and effectiveness on a wide variety of surfaces. These leads are ideal for working in diverse conditions, whether dry or wet, smooth or rough, dusty or oily, and on light or dark surfaces. Their formulation allows for easy removal from smooth surfaces using a damp cloth, making them a practical choice for various applications.

The leads come pre-sharpened, ensuring a precise and clean line from the first use. Furthermore, the case is durable, guaranteeing the protection of the leads during storage and transport.

It is important to note that the red and yellow leads should not be exposed to temperatures above 40°C to maintain their quality and performance.

- Water-soluble multipurpose leads
- Compatible with dry and wet surfaces
- Works on smooth, rough, dusty, and oily surfaces
- Easy removal from smooth surfaces with a damp cloth
- Pre-sharpened tips for precise lines
- Durable case for added durability
