**KUKKO 33x500 mm mechanical spindle with depth stop and reversible tip.**

Brand: Kukko

Reference: TUR 633500

KUKKO-633500 33x500 mm mechanical spindle, designed for bearing pullers. Includes a depth stop for added safety, laser marking on the head and neck, a special coating for optimal sliding, and a reversible tip for better shaft adaptation.

[View product online](#)**Description**

The Kukko-633500 mechanical spindle is an essential tool for bearing extraction, specifically designed for use with KUKKO extractors. Measuring 33 x 500 mm, this spindle offers a combination of precision and durability, ensuring optimal performance in various mechanical applications.

One of the standout features of this spindle is its head equipped with a depth stop, which ensures the wrench remains in place during the extraction process, preventing any unwanted slippage. Both the head and neck of the spindle are laser-marked with the part number, facilitating identification and verifying its authenticity.

The spindle's special coating provides exceptional sliding capability, improving work efficiency.

Furthermore, the spindle tip is reversible, allowing for optimal adaptation to the shaft and increasing the tool's versatility.

- Dimensions: 33x500 mm
- Depth stop on the spindle head
- Laser marking on head and neck
- Special coating for improved sliding
- Designed for KUKKO extractors
- Reversible tip for shaft adaptation
- High-quality manufacturing
- Ideal for bearing removal
- Professional and mechanical use

- Guaranteed durability

Specifications

Colour	Black
EAN	4021176893452
Manufacturer	Kukko
Weight (kg)	0,2000
