Description

The GT Line-AIBOX6.F is an inner foam drawer/case designed specifically for the ALL.IN.ONE model, with a height of 60 cm. Made of high-resistance polypropylene, this product is shockproof, guaranteeing the protection of your components and accessories at all times. Its design allows for easy insertion into the ALL.IN.ONE case by removing the transparent top lid, facilitating access and organization of stored items.

AIBOXES are available in different configurations, including options with two-tone pre-cut foam, empty, or with a set of small boxes for storing small components. Each drawer/case has an identification label for quick identification of the contents, as well as a secure locking system with two latches.

Its stackability optimizes space and functionality in any work environment.

- Material: Shockproof polypropylene
