Description

The HPL Sola-HPL3180 precision spirit level is an indispensable tool for professionals installing doors and windows. Designed for maximum accuracy, this level features highly sensitive bubbles that detect even the smallest deviations. Its innovative SOLA FOCUS bubble provides a faster and more precise reading, improving work efficiency.

Constructed with a robust 100x25 mm aluminum I-beam and weighing 1181 g/m, the HPL3180 ensures exceptional stability during use. Its natural anodized finish not only provides durability but also highlights its professional design.

The acrylic block bubbles are shatter-resistant and feature a magnifying lens that increases visibility by 60%, plus a 30-year leak-proof guarantee.

- Maximum measurement accuracy in standard and inverted positions.
- Maximum tolerance in standard position: 0.30 mm/m (0.017°).
- Maximum tolerance in inverted position: 0.50 mm/m (0.029°).
- SOLA FOCUS bubble for 25% faster and more accurate leveling.
- Improved readability with 45% improved visibility.
- Integrated handles for a comfortable grip.
- Natural anodized design.
- Shatter-resistant acrylic block bubbles.
- 30-year leak-proof guarantee.
- Ideal for the installation of doors and windows.
