Description

The Kukko-120-30 is a Vario 2-leg universal bearing puller designed to offer an efficient and versatile solution for removing components such as bearings, gears, and discs. Measuring 350 x 200 mm, this puller adapts to various applications, allowing for quick changes or rotation of the pull legs via a simple locking mechanism. Its innovative design includes standard pull hooks that can be progressively moved along the crossbar, facilitating adaptation to different part sizes. Furthermore, the depth stop on the spindle heads prevents the wrench from slipping, ensuring safe and effective use.

- Vario 2-Leg Universal Puller.
- Dimensions: 350 x 200 mm.
- Quick-change puller legs.
- Usable as an external and internal puller.
- Progressively adjustable puller hooks.
- Mechanical spindle with interchangeable tip.
- Rolled thread with special coating.
- Depth stop on the spindle heads.
- Components available as replacement parts.
- A 3-arm puller is recommended if there is sufficient space.

Specifications

EAN	4021176918759
Manufacturer	Kukko
Weight (kg)	5,0250
