### Description

The Kukko-38-1 is a single puller hook specifically designed for wheel hub pullers, ideal for use on cars and trucks. This universal puller features five puller claws that allow working with a hole diameter of up to 250 mm. Its innovative design ensures gentle handling of wheel bolts, thanks to the rotating lower part of the jaws, which always rests flat, minimizing the risk of damage during the extraction process. The Kukko-38-1 can also be supplied in a hydraulic version with a 10-ton capacity (Ref. No. 38-B), making it a versatile and robust tool for various workshop applications. (Ref. No. 38-B)

**Material:** Robust and durable construction

**Applications:** Ideal for mechanical workshops and vehicle maintenance

**Ease of use:** Intuitive design for simple operation

**Safety:** Minimizes the risk of damage to wheel bolts

### Specifications

|              |               |
|--------------|---------------|
| Part Number  | 4021176014468 |
| Manufacturer | Kukko         |
| Weight (kg)  | 0,4950        |
