Description

The GT Line-NMWHEELSPEL tool case is the ideal solution for those seeking safe and efficient tool storage. Its modern and extremely robust design features a shockproof body made of high-density polyethylene. This material offers excellent resistance to extreme temperatures and most corrosive chemicals, guaranteeing the product's durability under various working conditions.

The case has a tool anchoring system using elastic straps, allowing for optimal organization. It also includes a dedicated document compartment and two tool panels with adjustable dividers, facilitating access and sorting of tools. For small items, there are two additional boxes ensuring that everything has its place.

Transport is easy thanks to its heavy-duty handle and telescopic trolley handle, complemented by large wheels for smooth and easy movement.

Security is guaranteed with two TSA-approved metal locks, offering peace of mind during transport.
