Description

The GT Line-ATOMIKWHPTS tool case is a robust and functional solution designed to meet the needs of the most demanding professionals. Made of high-density polypropylene, this case offers excellent resistance to extreme temperatures and most corrosive chemicals. Its innovative injection molding system ensures consistent material thickness, even at the corners, contributing to its durability. The large, thick aluminum frame is designed to withstand daily use in demanding work environments.

The tool attachment system includes patented 'Flexipouches' made of extra-resistant elastic material with reinforced stitching, which efficiently accommodate each tool.

It also features an ergonomic design that facilitates its transport and use.

- Made of high-density polypropylene.
- Resistant to high and low temperatures, as well as corrosive chemicals.
- Large, thick aluminum frame for demanding jobs.
- Patented 'Flexipouches' pockets with elastic material and reinforced stitching.
- 2 tool panels with elastic straps.
- 2 metal locks with keys for added security.
- 3 metal hinges that guarantee maximum strength.
- Ergonomic rubber-coated handle for a comfortable grip.
- Telescopic handle (trolley) and 2 wheels for easy transport.
- Interior compartment with adjustable dividers and name and address label.

Specifications

High	50,00
