Description

The **PULLPO Kukko-70-01 Bearing Puller** is a tool designed to facilitate the non-destructive removal of grooved ball bearings, allowing the process to be performed without disassembling the shaft. Its innovative mounting system ensures simple and efficient handling, making it an ideal choice for professionals seeking precision and ease in their maintenance tasks.

This puller is suitable for use with a slide hammer, adding versatility to its application. The spindle heads are equipped with a depth stop, preventing the wrench from slipping out of place during use.

Furthermore, the crossbar design allows for reach adjustment, ensuring a secure grip of the puller legs on the workpiece.

- Simple and efficient mounting system
- Suitable for use with a slide hammer
- Spindle heads with depth stop
- Non-destructive removal of grooved ball bearings
- Allows working without removing the shaft
- Special crossbar shape for secure clamping
- Reach adjustment for greater versatility
- Compatible with 70-0 series legs
- Legs not included

The Kukko-70-01 is an essential tool for any workshop requiring a reliable and easy-to-use bearing puller.

Specifications

EAN	4021176908972
Manufacturer	Kukko
Weight (kg)	0,4000
