Description

The Kukko-70-022-S is a set of four PULLPO extraction hooks designed for the non-destructive removal of grooved ball bearings without shaft disassembly. This mounting system ensures simple and efficient handling, allowing users to perform maintenance tasks with greater precision and safety. The extraction legs are specially designed for precise mounting on bearing rails, guaranteeing optimal support and increased removal forces.

The different leg types are color-coded for easy identification and use.

This set is compatible with the 70-0 series spindle, making it a versatile tool for professionals who require reliable performance in their extraction jobs.

- **Model:** Kukko-70-022-S
- **Type:** PULLPO 4-Hook Puller Set
- **Use:** Non-destructive removal of grooved ball bearings
- **Compatibility:** 70-0 series spindle
- **Mounting:** Precise on bearing rails
- **Colors:** Easy identification of leg types
- **Advantage:** Increased disassembly force
- **Application:** Industrial and mechanical maintenance
- **Material:** High resistance and durability
- **Design:** Ergonomics for easy handling

Specifications

EAN	4021176181368
Manufacturer	Kukko
Weight (kg)	0,9350
