Description

The GT Line-BOXERWHPEL tool case is the ideal solution for professionals who require safe and efficient storage of their tools. Made of high-density polypropylene, this case offers remarkable resistance to extreme temperatures and most corrosive chemicals, guaranteeing the protection of its contents under various working conditions. Its modern and compact design allows for a large storage capacity without sacrificing lightness, facilitating transport.

The aluminum frame provides additional robustness, ensuring the product's durability. Equipped with two tool panels with elastic straps, this model allows for secure tool attachment, keeping them organized and accessible. The central lock with key adds an extra level of security, while the ergonomic chrome handle and the telescopic trolley handle, along with the two wheels, ensure comfortable and efficient transport.

In addition, it features a document compartment and an interior with adjustable dividers, adapting to the specific needs of each user.
