Description

The GT Line-BOXERWHPTS tool case is an ideal solution for professionals who require safe and efficient storage of their tools. Made of high-density polypropylene, this case stands out for its resistance to extreme temperatures and most corrosive chemicals, making it a durable and reliable option. Its modern and compact design allows for a large storage capacity without sacrificing lightness, facilitating transport.

The aluminum frame provides additional robustness, ensuring that the case maintains its integrity even under demanding conditions. Equipped with two tool panels with elastic straps, this model includes a central lock with a key for added security. Ergonomics are reflected in its chrome handle and telescopic trolley handle, complemented by two wheels that allow for agile movement.

In addition, it features a document compartment and an interior with adjustable dividers, facilitating the organization of tools and accessories.

The name and address label adds a practical touch for identification.
