Description

The Picard-0004302-1250 square mallet is a high-quality tool designed to meet the demands of professionals in the construction and repair fields. Its black epoxy-coated head is made of specially hardened and tempered alloy steel, ensuring superior corrosion resistance and long-lasting durability. The polished striking surfaces allow for efficient and precise use, while the connection between the head and handle is made with a patented SecuTec screw wedge, ensuring an extra-secure joint. Additionally, it features a protective sleeve that reinforces the handle against misfires, providing an extra level of safety.
