Description

The Ruko-107022-D Support for the Unigrat deburring tool is designed to offer versatility and precision in the deburring process. This support is adaptable to a universal handle A, allowing its integration into various work setups. Its innovative design includes a sliding system that allows the support's position to be adjusted up to 100 mm, facilitating access to difficult areas and optimizing work efficiency. Furthermore, the knurled ring allows the support to be fixed in any desired position, ensuring a firm and stable grip during use. It is compatible with D80 and D82 blades, expanding its functionality and making it an essential tool for professionals in the sector.
