Description

The Ruko-107023 D80 blade for the Unigrat deburring tool is a high-precision tool designed for flat scraping and deburring of sheet metal. Made of carbide, this blade offers exceptional durability and superior performance in industrial applications. Its design includes six cutting edges, maximizing work efficiency and allowing for a clean, professional finish on materials up to 3 mm thick. The reversible blade feature ensures a long service life, allowing it to be used on both sides and thus optimizing its performance.

- **Material:** Carbide
- **Application:** Flat scraping and deburring of sheet metal
- **Maximum material thickness:** 3 mm
- **Cutting edges:** 6
- **Reversible:** Yes
- **Compatibility:** Unigrat Deburrer
- **Use:** Industrial and professional
- **Durability:** High wear resistance
- **Finish:** Clean and precise
- **Maintenance:** Easy to clean and maintain

Specifications

EAN	4007140007513
Manufacturer	Ruko
Weight (kg)	0,0080
