Description

The Ruko-107033 Countersink F20 is a high-precision tool specifically designed for deburring drill holes up to Ø 20 mm. Made of high-speed steel (HSS), this countersink ensures a clean and efficient cut, optimizing the finish of the workpieces. Its ergonomic design and cutting geometry allow for extended use without compromising work quality, making it ideal for applications in metal, wood, and plastics. This countersink is a versatile solution for professionals looking to improve the quality of their drills and effectively remove burrs.

- **Material:** High-speed steel (HSS)
- **Maximum deburring diameter:** Ø 20 mm
- **Applications:** Metal, wood, and plastics
- **Ergonomic design:** Facilitates handling and reduces fatigue
- **Optimized cutting geometry:** Ensures a clean finish
- **Durability:** High wear resistance
- **Compatibility:** Ideal for use in standard drills
- **Professional use:** Recommended for workshops and precision work
- **Dimensions:** Compact and easy to store
- **Quality Guaranteed:** Product of the renowned brand Ruko

Specifications

EAN	4007140007612
Manufacturer	Ruko
Weight (kg)	0,0300
