Description

The Witte-428046-25 bits are high-precision screwdriving tools designed to deliver exceptional performance in a variety of applications. Made from high-alloy steel, these bits undergo a post-hardening process that ensures their durability and strength. Thanks to the use of state-of-the-art technology and machinery, each bit features a precise geometry that optimizes torque transmission, resulting in more efficient and safer work. The intrinsic quality of these bits, combined with a perfect fit on the screw head and correct application, ensures a long service life and superior performance every time.

- **Material:** High-alloy steel
