

Product sheet

WITTE tips in perforated blister pack, 25 mm long, 6.5 mm diameter.

Brand: Witte

Reference: TUR 326414

Witte-326414-10 screwdriver bits in perforated blister pack, 25 mm (PL 6.5). Made of high-alloy steel, they guarantee optimal torque transmission thanks to their precise geometry and hardening process. Ideal for screwdriving applications.

Description

Witte-326414-10 screwdriver bits are high-precision screwdriving tools designed to deliver exceptional performance in a variety of applications. Manufactured from high-alloy steel, these bits benefit from state-of-the-art technology and machinery, ensuring their durability and effectiveness. The subsequent hardening process, combined with precise geometry, allows for optimal torque transmission, ensuring that every screw is driven efficiently and safely. The lifespan of each bit is determined by its intrinsic quality, the perfect fit on the screw head, and proper application during use.

- **Length:** 25 mm
- **Type:** Screwdriver bits
- **Material:** High-alloy steel
- **Technology:** Manufactured with modern machinery
- **Hardening process:** Post-hardening for increased durability
- **Geometry:** Precise design for optimal torque transmission
- **Compatibility:** Ideal for a wide range of screws
- **Quality:** High intrinsic quality for long-lasting performance
- **Application:** Use in professional and domestic environments
- **Presentation:** Perforated blister pack for easy storage and access

Specifications

EAN	4003955301808
-----	---------------

Manufacturer	WITTE
Weight (kg)	0,0600
