Description

The GT Line-BOXERPTS tool case combines modern design with functionality and practicality. Made of high-quality polypropylene, this case is lightweight and compact, making it the ideal choice for transporting and storing tools. Its aluminum frame provides strength and durability, while the chrome-plated handle with a rubber grip ensures a comfortable and secure hold during use. The central lock with key provides added security for your tools and documents.

The interior of the case is designed to maximize organization and access to your tools. It features a document compartment, two tool panels, a bottom compartment, and two small storage boxes.

Tools are secured using patented pockets made of extra-resistant elastic material with reinforced stitching. These pockets easily adapt to each tool, ensuring a secure fit and preventing unwanted movement.
