Description

The Jokari-J30300 stripping tool is specifically designed for stripping AS interface cables, offering an efficient and precise solution for professionals in the electrical and automation fields. Its robust construction and external rubber sheath ensure a comfortable and secure grip, facilitating its use in a variety of applications. The specially designed blades allow for clean stripping without damaging the inner conductor, ensuring cable integrity. Furthermore, this device includes an additional function for stripping 1.5 mm² cables, making it a versatile tool for various electrical tasks.

- **Model:** Jokari-J30300
- **Type:** AS interface cable stripper
- **Sheath material:** Rubber
- **Blades:** Special design for precise stripping
- **Additional capacity:** Stripping 1.5 mm² cables
- **Use:** Ideal for electrical and automation work
- **Grip:** Comfortable and secure thanks to its ergonomic design
- **Durability:** Robust construction for extended use
- **Applications:** AS interface cables and other electrical cables
- **Dimensions:** Compact and easy to transport

Specifications

EAN	4011391303003
Manufacturer	Jokari
Material	Goma
Weight (kg)	0,0500
