Description

The Brennenstuhl Super-Solid-Line power strip is a robust and functional power solution designed for any environment. Made of high-strength, shatter-resistant polycarbonate, this power strip ensures durability and safety. Its innovative design includes cable routing on the opposite side of the switch, making it especially practical for use in confined spaces, such as under tables or desks. It also features non-slip rubber feet that provide stability and prevent accidental sliding. The wide spacing between the power outlets allows for connecting bulky devices without interference, while the convenient hanging bracket with a screw hole makes it easy to install in various locations. The ON/OFF safety switch, equipped with an indicator light, adds an extra level of convenience and safety to everyday use.
