Description

The brennenstuhl® Connect Ecolor WiFi smart power strip is an advanced solution for controlling electrical devices in your home or office. Designed for convenience and functionality, this power strip allows you to manage connected devices via your smartphone or tablet, making it easy to turn them on and off from anywhere with internet access. Its compatibility with voice assistants like Amazon Alexa and Google Assistant provides an even more intuitive user experience, enabling voice control of your devices.

Installation is simple thanks to the free brennenstuhl® Connect app, which guides you through the setup and control process. It also features a 1-channel WiFi module that allows for manual operation of the power strip, offering flexibility in its use.

Its black and white design, made of plastic and PVC, adapts to any environment, while the 45° socket arrangement and 90° plug type ensure an efficient and tidy connection.
