The GT Line V-Rock Turtle PTS tool case is the ideal solution for professionals who require safe and efficient transport of their tools. Made of high-density polyethylene, this upright case is virtually indestructible and designed to withstand demanding conditions. Its extra-thick, special aluminum rim ensures a tight closure, while reinforced edges make it perfect for air freight. Corrosion resistance guarantees long-lasting durability, and the new lid retention system with a double gas spring provides easy and secure access to its contents.

With a spacious compartment for power tools, accessories, and spare parts, the V-Rock Turtle PTS also includes a document wallet and tool panels with elastic straps for optimal organization. Its ergonomic design is complemented by two handles with a two-component grip, a telescopic handle, and large Ø120mm wheels, making it easy to transport.

It also features two TSA-approved metal locks for added security and three small boxes for components. Made of high-density polyethylene. Extra-thick aluminum rim. Corrosion resistant. Lid retention system with double gas springs. Two ergonomic handles and one telescopic handle. 120mm diameter wheels with steel axles. Large compartment for tools and accessories. Tool panels with elastic straps. Two TSA-approved metal locks. Tool retention system with elastic pockets.
