The Waterproof GT 52-21 PEL tool case is a robust and versatile solution designed to meet the demands of the industrial, aerospace, medical, marine, and military sectors. Made of high-density polypropylene, this case is submersible and offers exceptional resistance to water, dust, and sand, thanks to its polyurethane gasket and pressure valve. Its impact- and corrosion-resistant construction ensures the protection of its contents under adverse conditions, while its airtight and watertight design (IP67) guarantees the integrity of the stored items. With a temperature range of -33°C to +99°C, this case is ideal for a variety of applications.

- New lid retention system with double gas spring.
- Reinforced steel holes for padlocks.
- Suitable for carry-on baggage (meets most airlines).
- Ergonomic handle with bi-component grip.
- Telescopic handle (trolley) and wheels for easy transport.
- A4 document pocket in the top lid.
- Top tool panel (double-sided) and bottom tool panel.
- Automatic pressurization valve.
- Latches with release lever to prevent accidental opening.
- Base with reinforced steel removable dividers and tool retention system with straps elastic.

Specifications

EAN	8024482184302
Manufacturer	GT Line
Weight (kg)	6,7000
