**KUKKO internal extractor with wear protection Ø 34-48 mm**

Brand: Kukko

Reference: TUR 21-5-E-C

The Kukko-21-5-EC is an internal puller designed for tight spaces, ideal for bearings and outer rings. Its titanium nitride coating provides increased hardness and wear resistance. Compatible with counterweights and belt hammers.

[View product online](#)**Description**

The Kukko-21-5-EC is an internal puller specifically designed for removing bearings, outer bearing rings, and sleeves mounted flat in confined spaces. This century-old Kukko model is distinguished by its Titanium Nitride coating, which provides increased hardness and resistance to wear and corrosion, ensuring a long service life and optimal performance under demanding conditions.

Its versatility allows it to be combined with both counterweights and belt hammers, making it an indispensable tool for professionals who require precision and efficiency in their work.

Furthermore, all components of the puller are available as replacement parts, facilitating maintenance and repair.

- Working diameter: Ø 34-48 mm
- Titanium Nitride coating for increased durability
- Protection against wear and corrosion
- Compatible with counter supports and belt hammers
- Optimized design for tight spaces
- Ideal for removing bearings and sleeves
- Components available as replacement parts
- High-quality manufacturing by Kukko
- Professional and workshop use
- Easy handling and operation

Specifications

EAN	4021176003714
Manufacturer	Kukko
Weight (kg)	0,5000
