Description

The SK-16 safety cutter with replaceable concealed blades has been designed to meet the needs of professionals who require an efficient and safe tool for cutting thick materials. With a wider opening than its predecessor, the SK-15, this cutter allows for precise cuts in double-walled cardboard boxes, carpets, and rubber sheets, minimizing cutting resistance thanks to its innovative design.

The SK-16 stands out for its concealed blade system, which ensures maximum safety by preventing blade exposure, protecting both the user and the products being handled. Its ergonomic design provides a comfortable grip, facilitating prolonged use without fatigue. Furthermore, the blade-changing mechanism is simple and accessible from either side of the handle, allowing for quick replacement when needed.

This cutter also features an improved metal tip for tape cutting and is resistant to solvents such as acetone, making it easy to clean.

With a body made of high-strength plastic resin, the SK-16 is a robust and durable tool, ideal for intensive unpacking tasks.

- **Locking Type:** Safety
- **Blade Size:** Special 44 x 37.9 mm
- **Body Material:** High-strength plastic resin
- **Compatible Blades:** SKB-16
- **Ergonomic Design:** Improves grip and comfort

- **Metal Tip:** For cutting tape
- **Lanyard Hole:** Prevents accidents (lanyard not included)
- **Solvent Resistance:** Easy cleaning with acetone
- **Recommended Use:** Cutting thick materials
- **Exposure minimum blade thickness:** Increases safety

Specifications

High	2,10
Width	9,50
EAN	91511230383
Manufacturer	Olfa
Weight (kg)	0,0714
Depth	22,00
