

Product sheet

RUKO SDSplus drill bit, 4 points, 18x260mm, with maximum energy transfer.

Brand: Ruko

Reference: TUR 123181

The Ruko-123181 18x260mm drill bit features four cutting edges that optimize drilling in concrete. Its design reduces vibration and friction, resulting in shorter drilling times and ensuring maximum energy transfer without risk of breakage.

Description

The Ruko-123181 drill bit is a high-precision tool specifically designed for drilling concrete. With its four cutting edges, this drill bit features a special flute geometry that optimizes dust evacuation, resulting in superior performance and more efficient feeding. Thanks to its design, the Ruko-123181 reduces vibration and friction, enabling significantly shorter drilling times. Furthermore, its reinforced core ensures maximum energy transfer, guaranteeing effective performance even when impacting steel reinforcements, thus eliminating the risk of breakage.

- **Diameter:** 18 mm
- **Total Length:** 260 mm
- **Tip Type:** 4 cutting edges
- **Material:** High-quality steel
- **Groove Geometry:** Specially designed to optimize dust evacuation
- **Vibration Reduction:** Yes
- **Low Friction:** Yes
- **Core Reinforcement:** For maximum energy transfer
- **Recommended Use:** Concrete and similar materials
- **Compatibility:** SDS-plus system

Specifications

EAN	4007140395610
Manufacturer	Ruko
