

Product sheet

RUKO SDSplus drill bit, 4 points, 8x210mm, with maximum energy transfer.

Brand: Ruko

Reference: TUR 123082

The Ruko-123082 8x210mm drill bit features four cutting edges that optimize drilling in concrete. Its design reduces vibration and friction, resulting in shorter drilling times and ensuring maximum energy transfer without risk of breakage.

Description

The Ruko-123082 drill bit is a high-precision tool specifically designed for drilling concrete. With its four cutting edges and a special flute geometry, this drill bit optimizes the flow of drilling powder, resulting in greater work efficiency. Its innovative design reduces vibration and friction, allowing for significantly shorter drilling times. Furthermore, it features a reinforced core that ensures maximum energy transfer, guaranteeing superior performance with every use. The drill bit is designed to minimize the risk of breakage upon impact with the reinforcement, making it a reliable choice for professionals and DIY enthusiasts.

- **Diameter:** 8 mm
- **Total Length:** 210 mm
- **Tip Type:** 4 cutting edges
- **Material:** High-quality steel
- **Flute Geometry:** Specially designed to optimize powder feeding
- **Vibration Reduction:** Yes
- **Low Friction:** Yes
- **Core Reinforcement:** For maximum energy transfer
- **Risk of Breakage:** Minimal upon impact with the reinforcement
- **Application:** Drilling in concrete

Specifications

EAN	4007140395443
Manufacturer	Ruko
