### Description

The GT Line REVO21 tool case is the ideal solution for professionals who require safe and efficient storage of their tools. Manufactured from high-density polypropylene using an injection molding process, this case stands out for its innovative design and exceptional resistance to extreme conditions. Its structure is designed to withstand high and low temperatures, impacts, and most corrosive chemicals, guaranteeing the durability and protection of its contents.

The REVO21 model incorporates a new lid retention system with self-locking hinges, ensuring safe and convenient access to the tools.

Furthermore, its robust aluminum frame and ergonomic two-component handle make it easy to carry, while the four feet integrated into the top lid improve the suitcase's stability and stackability.

- Material: High-density polypropylene
- Resistant to extreme temperatures and chemicals
- 2 locks with 2 keys for added security
- Robust aluminum frame
- Ergonomic two-component handle
- 3 hinges with self-locking system
- 4 feet integrated into the top lid
- Lower section with adjustable and removable dividers
- Innovative and functional design
