Description

The Hedgehog-LMCE8-8" Medium-Fine Half-Round Mechanic's File is a tool specifically designed for filing flat and concave surfaces. Its segmented circular cross-section allows precise and efficient access to hard-to-reach areas, facilitating a uniform and detailed finish. The file's design features a width and thickness that taper slightly towards the tip, providing greater control and precision. It also has a double cut on both sides, optimizing its cutting ability and improving the tool's durability.

- **Type:** Medium-Fine Half-Round Mechanic's File
- **Length:** 8 inches
- **Shape:** Segmented circular cross-section
- **Use:** Ideal for filing flat and concave surfaces
- **Design:** Width and thickness that taper towards the tip
- **Pruning:** Double-ported on both sides
- **Material:** High-quality steel
- **Applications:** Mechanical, woodworking, and precision work
- **Maintenance:** Easy to clean and maintain
- **Compatibility:** Suitable for various types of materials
