Description

The Hedgehog-LCUF8-8" Fine Knife Mechanic's File is a specialized tool designed for precise filing of sharp angles on dies, gear teeth, and other technical applications. Its elongated triangular section, reminiscent of a knife, allows easy and efficient access to hard-to-reach areas. The double cut on both sides of the file provides superior performance in roughing and finishing surfaces, while the thin edge, with single cut, facilitates work on fine and delicate details.

- **Length:** 8 inches
- **Section:** Elongated Triangular
- **Cutting:** Double on both sides, single on the thin edge
- **Use:** Ideal for filing sharp angles on dies and gear teeth
- **Material:** High-quality steel for durability
- **Design:** Optimized ergonomics for comfortable handling
- **Applications:** Mechanics, metallurgy, and precision work
- **Maintenance:** Easy to clean and maintain
- **Compatibility:** Suitable for use in workshops and industrial environments
- **Precision:** Enables fine and detailed finishes
