Description

The Erizo-LLLF8-Lima thin flat mechanic's file is a tool specifically designed for precision mechanical work, as well as for use in the locksmithing and gunsmithing industries. Its distinctive design features a shape similar to that of a conventional flat file, but with the advantage of being considerably thinner and more pointed, allowing easier access to tight spaces and more detailed finishing on delicate surfaces. This file features double cuts on both faces and single cuts on its edges, making it a versatile and effective tool for various applications.
