Description

The Erizo-LMBMCB8 8" mechanic's file is specifically designed for working with soft metals, such as lead and antifriction metal. Its robust construction and special cut ensure optimal performance in applications requiring precision and care. With the same dimensions and cross-section as a standard half-round file, this tool perfectly suits the needs of professionals seeking an effective solution for roughing and finishing metal surfaces. Its design allows for comfortable and efficient use, facilitating work on various types of projects.

- **Length:** 8 inches
- **Metal Type:** Ideal for lead and antifriction metal
- **Cut:** Special and simple for a precise finish
- **Dimensions:** Same dimensions as a standard half-round file
- **Use:** Perfect for roughing and finishing soft metals
- **Ergonomics:** Design that facilitates handling and comfort
- **Durability:** Made with high-quality materials
- **Applications:** Ideal for mechanical work and model making
- **Maintenance:** Easy to clean and maintain in optimal condition
- **Compatibility:** Fits standard tools and accessories
