**VOGEL workshop caliper,
precision adjustment, 600 mm
DIN 862 monoblock**

Brand: Vogel

Reference: TUR 200536-1

DIN 862 monoblock workshop caliper, 600 mm precision. Made of hardened stainless steel, with satin chrome-plated scale and vernier. Ground jaws and compensated jaws for internal measurements. Includes fixing screw and identification number.

[View product online](#)**Description**

The Vogel-200536-1 Monoblock Workshop Caliper, compliant with DIN 862, is a high-precision measuring tool designed to meet the demands of the modern workshop. Made of hardened stainless steel, this caliper offers exceptional durability and corrosion resistance. Its scale and vernier have a satin chrome finish, with a laser-engraved scale that ensures a clear and accurate reading. The jaws are finely ground, allowing for precise measurements, while the compensated jaws are ideal for easily taking internal measurements. This model is available with or without fine adjustment and features a locking screw that ensures stability during use. The one-piece vernier caliper provides a robust and reliable structure, and each unit includes a unique identification number for traceability.

- DIN 862 caliper, suitable for workshop use.
- Made of hardened stainless steel.
- Satin chrome-finished scale and vernier.
- Laser-engraved scale for greater accuracy.
- Finely ground jaws for precise measurements.
- Compensated jaws for inside measurements.
- Available with or without fine adjustment.
- Knife-free for added safety.
- Locking screw for measurement stability.
- Measuring range from 0 to 600 mm with mm and cm increments.
