

Product sheet

**VOGEL high precision
temperature probe for
thermometer 640314**

Brand: Vogel

Reference: TUR 649303

Vogel-649303 temperature probe, compatible with thermometer 640314. It offers a temperature range up to +400 °C. Its length is 950 mm and its diameter is 2 mm, ideal for various thermal measurement applications.

[View product online](#)**Description**

The Vogel-649303 temperature probe is an essential accessory for the 640314 thermometer, designed to provide accurate measurements across a wide range of applications. Capable of withstanding temperatures up to +400 °C, this probe is ideal for industrial and laboratory environments where constant and reliable temperature monitoring is required. Its 950 mm length allows easy access to hard-to-reach areas, while its 2 mm diameter ensures simple insertion into various materials and media. The probe's robust construction ensures durability and resistance, making it an indispensable tool for professionals seeking precision and reliability in their thermal measurements.

- **Temperature range:** up to +400 °C
- **Length:** 950 mm
- **Diameter:** 2 mm
- **Compatibility:** Thermometer model 640314
- **Material:** Robust construction for increased durability
- **Use:** Ideal for industrial and laboratory applications
- **Accuracy:** Reliable and consistent measurements
- **Access:** Elongated design for hard-to-reach areas
- **Ease of use:** Simple insertion into various media
- **Applications:** Temperature monitoring in critical processes

Specifications

High	0,00
Width	0,00
EAN	4010873505546
Manufacturer	Vogel

Weight (kg)	0,0000
Depth	0,00
