The Ruko-259105E FLOWSTEP® HSSE-Co 5 (Ø 10.5 mm) twist drill bit is designed to deliver exceptional performance in drilling applications. Its innovative geometry and high-quality material allow for a significantly longer lifespan, achieving up to five times more holes compared to conventional drill bits. This drill bit is ideal for professionals seeking efficiency and precision in their work, as it reduces drilling time by up to 50%, resulting in considerable savings in energy and resources.

Thanks to its perfect centering, the Ruko-259105E prevents slippage, even on round surfaces such as pipes and tubes, ensuring a smooth and easy drilling process without jamming.

Its design is optimized for use in portable electric drills, including cordless models, making it a versatile and effective tool for any project.
