Description

The Top Roller R GT Line tool trolley is a practical and efficient solution for transporting and storing tools. Designed with a focus on functionality, this trolley features a robust frame made of tear-resistant black and gray material, ensuring durability and resistance in demanding work environments. Its design includes built-in wheels and a telescopic handle, facilitating mobility and handling. The central compartment is spacious, ideal for storing power tools, while the multiple internal and external pockets allow for optimal organization of accessories and tools of different sizes. Furthermore, the Top Roller R is equipped with an adjustable shoulder strap, offering versatility in carrying it. Its special support at the bottom ensures the bag remains upright, even when full, making it easy to access its contents. The 3M reflective strip provides increased visibility and safety in low-light conditions.
